# LAGOS, NIGERIA

## Huge IT boom in Nigeria

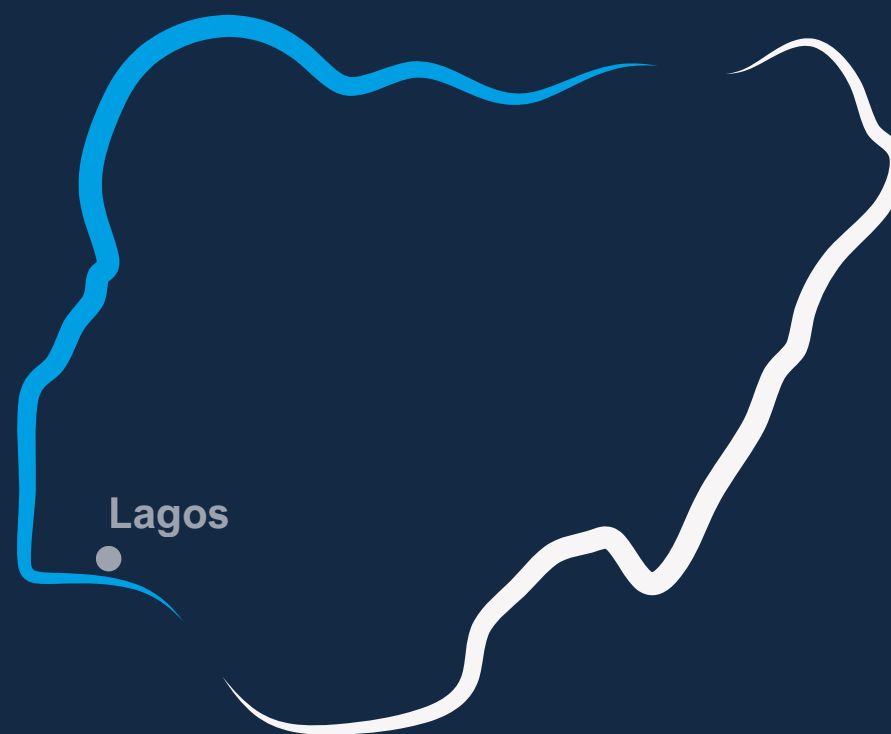

The Nigerian IT sector is rapidly gaining attention and has grown 10% annually in recent years.

There has been a immense focus on creating an environment for tech startups to flourish through a growing venture capital network

## An abundance of highly skilled IT professionals

Nigeria has a vibrant digital community with around 600.000 graduates every year

## High English proficiency

With English being the main language spoken in Nigeria and their timezone coinciding with most of Europe, there will be no barriers to efficient cooperation.

## Lagos, IT Hub

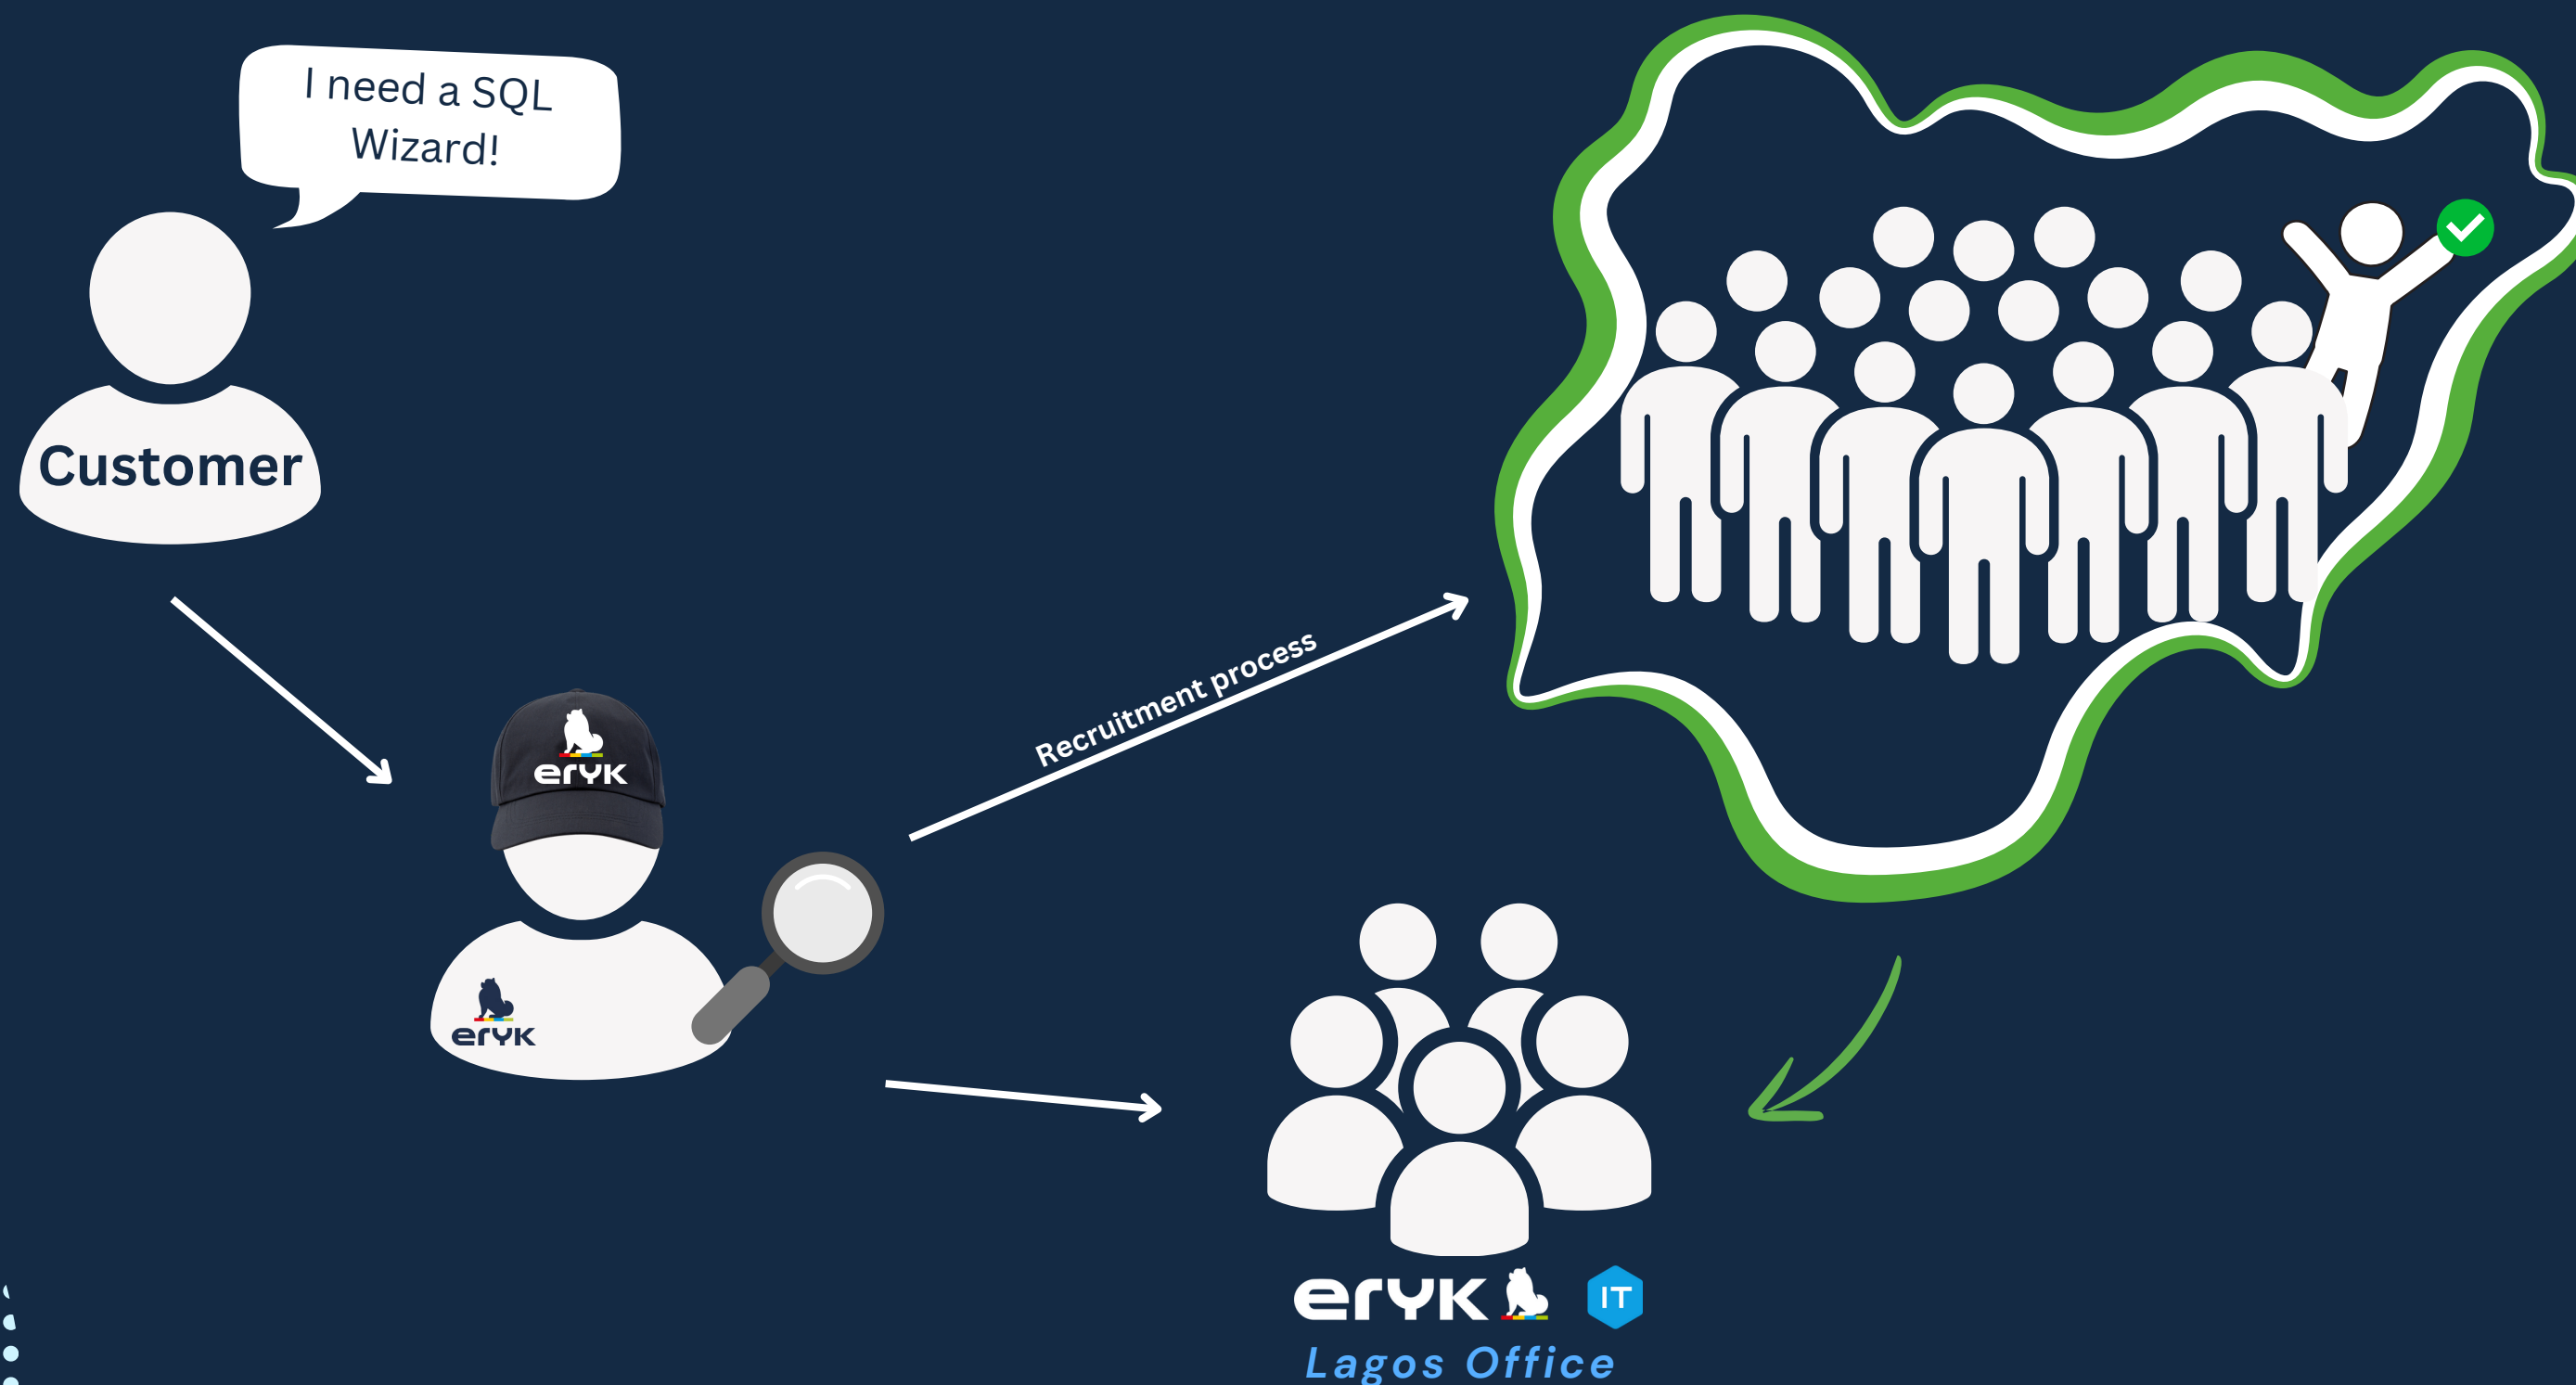

Lagos, also known as Africa's silicon valley is the heart of the Nigerian IT landscape home to several operations of giant IT companies such as Google, Facebook, Microsoft and IBM

# OUR PROCESS

How do we work?

# HOW WE FIND OUR COMPETENCES?

# STARTUP PROCESS
