Branch
in Denmark

MISSION STATEMENT

Our mission is to provide technical services in an agile way, whether it is electrical installation, mechanical assembly, commissioning and maintenance works, or all of these combined.

We aim to make your business more successful by offering you scalable resources, available to you wherever and whenever you need them. We are a responsible business partner and employer who strives for a reliable quality of service, cares for the environment and invests in its staff.

Egypt - the biggest silo project
in the world along the Nile

200+ employees

Ukraine - installations
in New Safe Confinement
in Chernobyl

2017

2018

*from 2024 also: Remote IT Services

VALUE ADDED TO YOUR BUSINESS

As a technical service partner, Eryk combines high quality and flexibility with cost optimization. With us, it is easier to adjust your capacity to the everchanging market conditions, to expand to

new markets, or to concentrate on your core business and leave the assembly, installation, welding or commissioning to us — anywhere in the world!

No need to research an unfamiliar market for local labor laws and safety regulations, or hire unproven local teams, when Eryk can handle all that, and deliver the job in high quality, at a competitive price and within the deadline.

The history of Eric of Pomerania inspired us in creating our new logo and name. The King of Denmark, Sweden and Norway, and Duke of Pomerania (born in Darłowo) - was a powerful ruler from the 15th century, who brought immense territories under one rule. The other source was the Pomeranian - a small dog with a lion-like attitude - this reflects our fierce attitude on the market and a friendly companionship we offer our customers.

With our brand we wish to be associated with ideas of loyalty, mobility, reliability and quality of technical services.

and National Posts

"Very impressed with the guys, worked seamlessly, good company, good suggestions from Eryk's team. Excellent cooperation and support"

Jesper Fauerskov

Engineering Manager

"Eryk supported ABB on offshore projects in the Danish part of the North Sea. With Eryk we are able to scale up and down, whenever it is needed and we have a stable collaboration partner we can rely on. They respect safety rules and are able to work alone on periodical checks of electrical switchboards as well as team up with our technicians."

Daniel Milde

Bauleitung Bereich Umwelt

"I'm very happy that Eryk could help us on this project. Hope to see you again in the future"

Lars Thybo Andersen

Managing Director, Owner

"As a member of the Danish Industry Association (DI), Eryk complies with all Danish regulations and collective agreements. We appreciate Eryk technicians' flexibility, performance, readiness to work long hours and, above all, the effective use of their time on-site."

Ronni H. Kristensen

Head of Project Management

"We are very satisfied with the team composition and project execution. We have seen a wide range of technicians from Eryk, and all have had the needed skills for the tasks given. We would like to have the same guys for all Effimat projects in future."

Our aim is to make our customers' business more successful by offering scalable solutions, available worldwide, whenever needed.

Jens-Chr. Møller, President of Eryk

SUSTAINABLE BUSINESS

We believe in conducting business in a manner which contributes to sustainable growth whilst demonstrating a high degree of social responsibility. We believe that this approach creates a source of competitive advantage for our business and its stakeholders.

Our priorities:

- remain a reliable partner for all our stakeholders and keep promises under changeable circumstances
- provide our employees with support, stability, development opportunities and safety

Our values:

- personal responsibility
- equality
- respect
- customer-centrism

APPRENTICESHIP PROGRAM

The program has been designed for a young generation of technicians at the beginning of their professional careers. Its aim is to give a chance to learn and gather experience on international projects under the supervision of our qualified technicians.

We are happy with the great support we receive from our customers, who also are requesting apprentices amongst the team composition on projects.

**BECOMING
WORLD-CLASS
TECHNICIANS**

Alex

"At the beginning of the training I was always standing and watching my supervisors, but now I feel that I have developed some capabilities and abilities to do some of the tasks on my own and I'm very proud of that."
