INDUSTRIAL ASSEMBLY, INSTALLATIONS AND COMMISSIONING

With more than 200 educated, skilled and experienced mechanical, electrical technicians and engineers, Eryk is ready to take care of your project anywhere in the world.

We carefully handpick teams of technicians with competences that best fit your project with support of our Key Account Engineers.

We have experience with conveyor, sorting, handling and packaging systems, e.g.:

- process industry,
- intralogistics,
- fulfillment centres,
- warehousing,
- CHP systems,
- food and beverage industry,
- fish-farming,
- agriculture,
- automotive industry.

High quality workmanship

We have worked with Eryk (formerly BIC Electric) on air cargo, internal logistics and automotive manufacturing industry projects in Europe, Hong-Kong, South Africa and the US. They are a very competent partner who delivers high quality workmanship and we look forward to continuing our cooperation in further projects.

OUR STANDARDS

- HSEQ certified according to: ISO 9001:2015, ISO 14001:2015, ISO 45001:2018, KLS
- CSR ISO 26000 conformity
- Electrical authorisation in Denmark, Sweden and Poland

We comply with all local labour market regulations, safety requirements, registrations as well as minimum salary rates in the countries where we work.

With us you can plan and adjust your capacity to the customer requirements, optimize the use of your resources and make more ambitious plans for the future. We handle interim, short-term and long-term project assignments. As always with Eryk, you get the same level of competitive price and high quality in all our projects.

So... What is your next project we can support you with?

Perfect match for scalability

We are very satisfied with the innovative and professional approach of Eryk. They have a broad resource base and they can send technicians with the exact qualifications we require, even at short notice. The employees are impressively hard-working: they get more work done in the same time, which allows me to predict and keep the deadlines more reliably. All of this helps Haas-Meincke as well as Frontmtec operate around the world with more freedom and flexibility and handle our various projects in the most cost-effective way.

Jan Skafte Mikkelsen

Installation & Commissioning Manager at Frontmtec A/S, former Installation Manager at Haas-Meincke A/S, worked with Eryk on projects involving installation and commissioning of baking ovens around Europe.
