

Electrotechnician

We are an international technical service provider with over 200 technicians delivering services to industry and energy sectors around the world. Our DNA is half-Danish and half-Polish. Currently we are looking for a competent, well-organized employees who are interested in work combined with foreign travel.

As a part of our team you will be responsible for:

- Electrical installations according to the technical specification of the project and customer recommendations, at a high-quality level
- Performing assembly works at a high-quality level and taking care of components and parts used during the project implementation
- Conducting modernization activities in the field of electrical installations and industrial automation

You are a good match if you:

- Have a specialist education
- Have an experience in switchgear assembly or electrical installations
- Have an ability to read technical scheme and drawings
- Have SEP entitlement to 1 kV
- Have a good understanding of English language

We offer:

- Employment contract or cooperation agreement for subcontractors
- Private medical care for you and your family after 6 months of employment
- Accommodation and transport to the project
- Challenging job in a fast-growing company on many foreign projects
- Professional training and courses financed by the company
- Integration parties
- Multisport card

If you are interested in this position, please send us your application (CV + cover letter + relevant references and documentation for education in one PDF file) in an email to job@eryk.com and mark it "Electrotechnician". We reserve the right to contact only selected candidates.
