- Installation and Service
- Over 130 installations yearly

Over 30 professionals experienced in elevator and escalator installations and over 250 electrical and mechanical specialists ready to execute electrical and mechanical installation projects.

Residential buildings

Industrial facilities

Office buildings

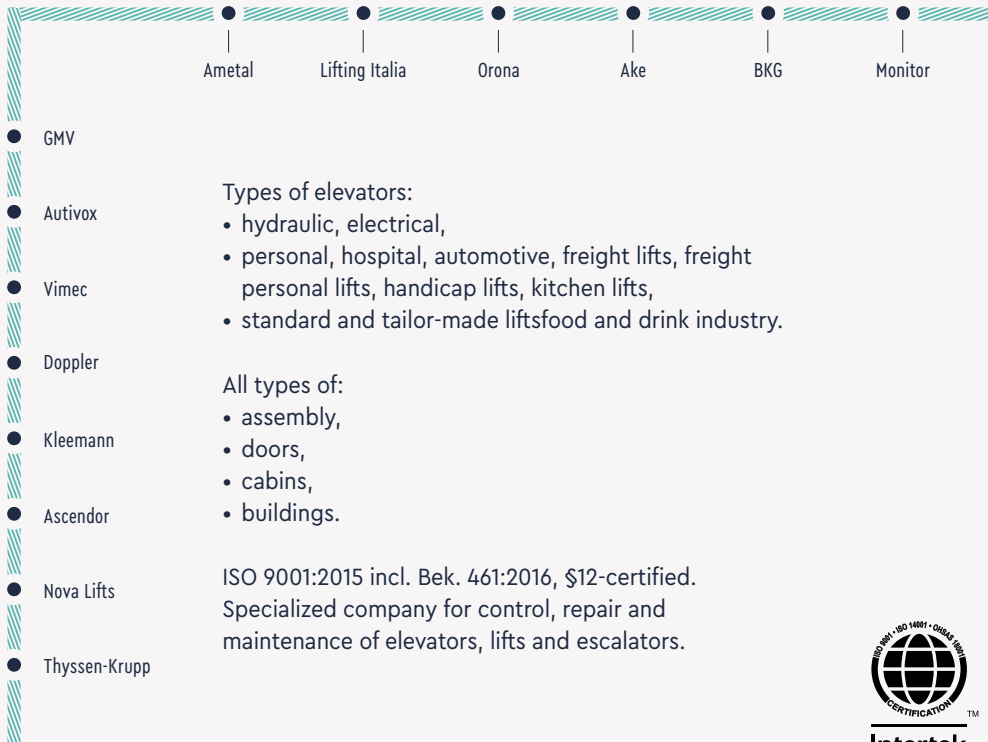

Warehouses & retail stores

Hotels

Train stations

Car parks

Hospitals

Things fell into place with Eryk immediately: good communication, experienced and efficient installation team and the potential to handle our target markets, incl. the ones we are yet to open for ourselves – these are all elements that make our life easier. We are looking forward to more installations together.

Julian Grad
