

BUILDING INSTALLATIONS

Electrical & Mechanical Installation Services

Eryk is your electrical installation partner within building industry. We improve your flexibility by offering a scalable resource to allow you to have more capacity at your disposal, when and where you need it. High quality, high performance, safety and legal compliance are included in the package.

Industrial facilities ●

Office buildings ●

Commercial buildings ●

Retail stores ●

Warehouses ●

Tunnels ●

Residential buildings ●

With Eryk, you can easily adjust your capacity to market and customer requirements. You will carry out projects that have, until now, exceeded your capabilities, and you will optimize the use of your resources. One way or another, with our scalable solution, we improve your competitiveness.

Whatever the size or duration of your project, you can rest assured that Eryk will carry out the electrical and mechanical installations on time, within budget, in high quality and in full compliance with labour law regulations.

Our technical know-how covers areas like:

- electrical installations from substations or power connection points, through cable trays, distribution and MCC panels, down to load points,
- machinery assembly and installations,
- fire-protection and alarm systems.

We have years of experience handling the challenges of various labour markets around the world and we never forget about the quality and health & safety.

Our English-speaking teams are hand-picked for the job and have the right skills and experience.

Eryk also handles:

- travel and accommodation,
- registrations and insurances,
- certificates and qualifications.

Our standards:

- HSEQ certified according to: DS/EN ISO 9001:2015, DS/EN ISO 14001:2015, ISO 45001:2018, KLS,
- CSR ISO 26000 conformity,
- electrical authorization in Denmark, Norway, Sweden and Poland.

Lelectric

When doing electrical installations in Denmark, we appreciate Eryk's technicians for a few reasons: their flexibility, performance, readiness to work long hours and, above all, the effective use of their time on-site. Contrary to the rumors about Polish subcontractors not paying salaries to their staff according to Danish collective agreements, Eryk's compliance with the Danish regulations is doubtless – This is also supported by their membership of the Danish Industry Association (DI).

Lars Thybo Andersen
Managing Director & Owner, Lelectric A/S

An installation partner as reliable as Eryk is a great asset. Our cooperation goes back to 2016, and we have since then executed numerous projects across Denmark – all at a very high quality level. Year after year, Eryk has supported us in installing main distribution boards, cable trays, lighting fixtures, emergency systems, earthing connections, pulling cables and much much more. Eryk have many times proven that they have our back – also when we needed immediate support. We are very satisfied with Eryk's professional, innovative approach and very high quality of their services.

Søren Jochimsen
Director & Owner, El-Team Vest A/S
